

## **U.S. Air Force Implements BMTS' Demolizer® Technology at Buckley Air Force Base Clinics**

BioMedical Technology Solutions Holdings, Inc. (OTCBB:BMTL)

BioMedical Technology Solutions, Inc. ("BMTS delivered two Demolizer® II Systems to Buckley Air Force Base in Denver, Colorado.

Stan Reed, BMTS' Sales Manager, worked closely with the Air Force Safety Officers prior to the sale. Stan said "major factors for the decision by the Air Force included our technology's fit with the Air Force's extensive "Green Initiative", the Demolizer II's long term cost advantages compared to traditional hauling, improved personnel safety and base security since hauling trucks no longer need to pass through gates and checkpoints."

"This is an important milestone for both BMTS and the U.S. military", said Don Cox, President and CEO of BMTS Holdings, Inc, further stating "we are also working with Incirlik Air Force Base in Turkey and expect to place systems to meet their needs later this year. The first release of the Demolizer® technology was successfully used by the Air Force in Iraq. Since that time, we have enhanced the system to the highest environmental and quality standards. We believe the Demolizer® II is ideally suited to meet the needs of all military branches. To this end, we are working to complete our GSA listing and will be actively focusing on the adoption of the Demolizer® II across the U.S. military to further support their extensive "Green" Initiatives, to help lower costs in these challenging economic times, and to improve base security. Between the four major branches of the U.S. military, there are literally thousands of applications for the Demolizer® II."

### **About BioMedical Technology Solutions Holdings, Inc.**

BioMedical Technology Solutions Holdings, Inc., located in Englewood, Colorado sells the Demolizer® II through its wholly owned subsidiary BioMedical Technology Solutions, Inc. BMTS' patented Demolizer® Technology converts infectious biomedical waste into non-infectious material. BMTS' products provide biomedical waste treatment solutions for the over 1,000,000 low to medium volume medical waste generators in the US and a global market five times larger than the US. For more information, visit [www.bmtscorp.com](http://www.bmtscorp.com) or call 866-525-2687.

### **About the Demolizer® II**

The Demolizer ® II is the GREEN alternative to biomedical waste disposal. The device is the only patented, portable, and self-contained system able to process both sharps and typical red bag biomedical waste onsite. The processed waste is rendered sterile and discarded as common trash eliminating up to 100% of the cost associated with its disposal. The Demolizer® II meets or exceeds all EPA and CDC guidelines and is approved or meets treatment requirements in 47 states after review by 78 governmental agencies. The device uses no chemicals or liquids, plugs

into a normal outlet through a surge protector, and automatically records and prints state required documentation. The Demolizer® II provides a safer, more environmentally GREEN method for biomedical waste disposal.
