Tim Coressel Appointed Vice President of Engineering and R&D at BioMedical Technology Solutions Holdings, Inc.

Englewood, CO—December 1, 2008— BioMedical Technology Solutions Holdings, Inc. (OTCBB: BMTL) (www.bmtscorp.com) which sells and leases devices through its wholly owned subsidiary BioMedical Technology Solutions, Inc., has announced the appointment of Tim Coressel as Vice President of Engineering and R&D. Coressel will be responsible for engineering, product development and manufacturing and report to Donald G. Cox, Jr., BMTS CEO.

Coressel brings more than 26 years of experience in medical devices, custom software development, business development and sales and distribution. He has been involved in numerous start-up companies since 1983 as an owner and an active investor. In 1992, as President and owner of Peak Technologies, his company was selected by the *Denver Business Journal* as one of the top 25 fastest-growing companies in Colorado.

"Tim's extensive background in engineering, along with his knowledge of medical devices and product development, is a winning combination," said Cox. "We're now positioned to be a leader in product innovation and increase our ability to service a diverse range of clients."

Coressel has been featured in numerous national magazines. *Value Added Reseller* (VAR), recognized him for his success in the telecommunications industry for his

contribution in the development of the industry's first multi-user PC based video rental point-of-sale-system, which was delivered in over 200 supermarkets across the country.

About BioMedical Technology Solutions Holdings, Inc.

BioMedical Technology Solutions Inc. (www.bmtscorp.com), a wholly owned subsidiary of BioMedical Technology Solutions Holdings, Inc., provides innovative solutions for environmentally friendly disposal of biomedical waste. Located in Englewood, Colorado, the Company sells and leases the patented Demolizer[®] II System, the GREEN alternative to biomedical waste disposal. BMTS products are simple, safe, secure and deliver cost savings for low to medium volume biomedical waste generators including doctors, dentists, veterinarians, long-term health care facilities, public venues and many more. For more information, visit www.BMTScorp.com or call 866-525-2687.

About The Demolizer[®] II

The Demolizer II System is a self-contained tabletop device for the onsite treatment of infectious biomedical waste. The innovative technology converts sharps and red bag biomedical waste into ordinary trash through a simple three-step process. The biomedical waste is sterile, sharps are destroyed and no longer recognizable, or reusable and the processed waste is discarded as common trash. The smart technology incorporates unprecedented quality controls, and compliance documentation is automatically generated at the completion of each process.
